Per Olof Wallström is proposed for re-election as chairman of the Board.

Stefan Persson, born 1967, is CEO and President of Camurus' main owner Sandberg Development AB. Stefan has studied technical physics and electronics at Linköping University Faculty of Science and Engineering. He has a long and successful career at Perstorp, Sony Ericsson, Bang & Olufsen and most recently as CEO of Precise Biometrics. He has also been active and living in China for some time. Stefan holds 1,597 shares in Camurus. Stefan is to be regarded as independent in relation to the company and the group management but not in relation to the company's major shareholders.

Information about Board members who are proposed for re-election can be found on the company's website www.camurus.com.

The Nomination Committee has, in accordance with the recommendation of the Audit Committee, proposed re-election of the registered auditing firm PricewaterhouseCoopers AB for a term of one year. PricewaterhouseCoopers AB has informed that Lisa Albertsson will be auditor in charge, if the company is elected.

Resolution on approval of remuneration report (item 13)

The Board of Directors proposes that the annual general meeting resolves to approve the Board of Directors' report regarding compensation pursuant to Chapter 8, Section 53 a of the Swedish Companies Act.

Proposal by the Board of Directors on authorization for the Board of Directors to resolve on issues of new shares and/or convertibles (item 14)

The Board of Directors proposes that the annual general meeting resolves to authorize the Board of Directors to resolve on issues of new shares and/or convertibles in accordance with the

following conditions:

1. The authorization may be exercised on one or several occasions up to the annual general meeting 2023.
2. Issues may be made of such number of new shares and/or convertibles, that corresponds to a maximum of 20 percent of the company's share capital.
3. An issue may be made with or without deviation from the shareholders' preferential right.
4. An issue may be made against cash payment, by set-off or by contribution in kind.
5. The issue price shall, in the case of deviation from the shareholders' preferential right, be determined in accordance with market practice. The Board of Directors shall be entitled to determine other terms of the issue.

The purpose of the above authorization and the reason for the deviation from the shareholders' preferential right is to enable licensing or investments in the development of product candidates, approved medicines and/or supplementary technologies, to carry out or finance, fully or partly, acquisitions of companies, product candidates or development projects, to strengthen the company's capital base and/or to broaden the company's ownership base.

Majority requirement

Under the Swedish Companies Act, the resolution of the general meeting on authorization for the Board of Directors to resolve on issues of new shares and/or convertibles requires the approval of shareholders representing at least two-thirds of both the number of votes cast and the shares represented at the meeting in order to be valid.

Resolution on authorization for the Board of Directors to resolve on acquisition and transfer of the company's own shares (item 15)

The Board of Directors proposes that the annual general meeting resolves to authorize the Board of Directors to resolve on acquisition and transfer of the company's own shares on the following conditions.

A. Authorization on acquisition of own shares

1. Acquisition may take place on Nasdaq Stockholm, on one or several occasions up to the next annual general meeting 2023.
2. Acquisition may be made of such number of shares that the company's holding of own shares does not at any time exceed two (2) percent of the total number of shares in the company,
3. Acquisition may be made at a price per share which falls within the prevailing price interval registered at each point in time (i.e. in the interval between the highest purchase price and the lowest selling price).
4. Payment of acquired shares shall be made in cash.

The purpose of the proposed authorization is to enable the financing or payment of possible future company acquisitions.

B. Authorization on transfer of own shares

1. Transfer may take place on one or several occasions up to the next annual general meeting 2023.
2. Transfer may be made of a maximum number of shares equivalent to the company's existing holding of own shares at the time of transfer.
3. Transfer may be made with deviation from the shareholders' preferential right.
4. Transfer may be made as payment of the total or part of the purchase price at an acquisition of a company or business or part of a company or business, where the consideration shall be equivalent to the estimated market value of the share at the time of the Board of Director's decision on transfer. On such transfer, payment may be made in cash, by assets contributed in kind or by set-off of a claim against the company.
5. Transfer may also be made against cash payment by sale on Nasdaq Stockholm at a price which falls within the prevailing price interval registered at each point in time (i.e. in the interval between the highest purchase price and the lowest selling price).

The purpose of the proposed authorization and the reason for deviation from the shareholders' preferential right is to enable the financing or payment of possible future company acquisitions.

Majority requirement

Under the Swedish Companies Act, the resolution of the general meeting to authorize the Board of Directors to resolve on acquisition and transfer of own shares, requires the approval of shareholders representing at least two-thirds of both the number of votes cast and the shares represented at the meeting in order to be valid.

Resolution on (A) the implementation of ESOP2022/2026, and (B) directed issue of warrants and approval of transfer of warrants to fulfil the company's commitments under ESOP2022/2026 and to secure social security charges (item 16)

Background and reasons

The Board of Directors of Camurus AB ("Camurus") proposes that the 2022 annual general meeting resolves to establish a long-term incentive program based on employee stock options for senior executives and other employees in the Camurus Group ("ESOP2022/2026").

Since 2016, the annual general meeting of Camurus has resolved on annually recurring incentive programs for the employees. Following an evaluation ahead of the 2021 annual general meeting, the Board for the first time decided to propose to the annual general meeting the establishment of an incentive program based on employee stock options. An incentive program based on employee stock options that are linked to the development of the share price, rewards the long term value growth in Camurus, creating common interests and goals for the company's shareholders and its employees. A successful implementation of Camurus' business strategy and the safeguarding of the company's long-term interests, presupposes that the company can recruit and retain qualified employees. The purpose of the proposed program is to be able to offer competitive remuneration, which is required in order to attract, retain and motivate employees, both in Sweden and internationally, and to ensure a long-term commitment from senior executives and other employees, through an incentive paired with the company's value growth.

To secure Camurus' commitments in accordance with ESOP2022/2026 as well as the social security charges associated with the program, the Board also proposes that the annual general meeting resolves on a directed issue of warrants and to approve the transfer of warrants in accordance with item B below.

Considering the terms proposed below, the size of the allotment and other circumstances, the Board considers that the proposed ESOP2022/2026 is well-balanced and beneficial for Camurus and its shareholders.

A. PROPOSAL BY THE BOARD OF DIRECTORS ON RESOLUTION REGARDING IMPLEMENTATION OF ESOP2022/2026

The Board proposes that the annual general meeting resolves to implement ESOP2022/2026 on the principal terms and conditions set out below:

1. ESOP2022/2026 shall include the issuance of a maximum of 1,000,000 employee stock options (the "Employee Options").
2. Each Employee Option entitles the holder to acquire one (1) new share in Camurus at an exercise price corresponding to 130 percent of the volume-weighted average price of the company's share on Nasdaq Stockholm during the ten days of trading immediately following the company's 2022 annual general meeting (the "Exercise Price"). The Exercise Price and the number of shares that each Employee Stock Option entitles to may be subject to recalculation as a result of bonus issue, split, rights issue and similar measures.
3. The Employee Options shall be granted free of charge. Over-allocation may not occur.
4. The Employee Options shall not constitute securities and may not be transferred or pledged. However, the rights associated with the Employee Options are transferred to the estate and its co-owners in the event of the participants' death.

5. Of the total number of Employee Options, a maximum of 929,000 Employee Options shall be allocated to participants who, at the time of implementation of ESOP2022/2026, are included in any of the following categories ("Option Group 1"), where allocation shall be made in accordance with the following principles.

Category	Number of Employee Options, maximum
CEO	maximum 42,000 Employee Options
Chief Commercial Officer and Chief Financial Officer	maximum 24,000 Employee Options per person
Other senior executives (7 persons)	maximum 16,000 Employee Options per person
Business Unit Head, Global Manager and General Manager (9 persons)	maximum 12,500 Employee Options per person
Country managers, senior specialists and regional key employees (22 persons)	maximum 9,500 Employee Options per person
Other specialists (38 persons)	maximum 5,000 Employee Options per person
Sales functions (33 persons)	maximum 3,500 Employee Options per person
Other employees (40 persons)	maximum 2,500 Employee Options per person

6. In view of Camurus' expected expansion in the coming year, at least 71,000 options, or the higher number of options that may remain after the allotment of the Employee Options in Option Group 1 has taken place in accordance with item A.5 above, shall be reserved for allotment and transfer to future employees. Such allocation to future employees shall take place in accordance with the allocation principles specified in item A.5, whereby the number of employees in each category specified above may change.
7. Allocation of Employee Options is expected to take place in May–June 2022. For subsequent new employees in the Camurus Group, allocation of Employee Options will be possible until the company's annual general meeting 2023. The reason why any new employees covered by the program may be allocated Employee Options at such point in time that the time period between the allotment and the start of the Exercise Period (as defined below) may be less than three years is that the Board deems it important that new employees, for the reasons that apply generally to the program, are given the opportunity to take part in a value growth in Camurus' share from the start of the employment.
8. Participants may exercise allotted and earned Employee Options during the period from and including 1 June 2025 to and including 1 March 2026 (the "Exercise Period"). The Board has the right to limit the number of occasions during the Exercise Period when the Employee Options can be exercised.
9. Exercise of Employee Options presupposes that the participant remains in his or her employment or equivalent employment in the Camurus Group at the time of exercise. The Board may decide otherwise in individual cases.

10. Upon exercise of the Employee Options, each Employee Option shall entitle the participant to receive one (1) share in Camurus, or one (1) warrant that can be immediately converted into a share, upon payment of the Exercise Price.
11. Participation in ESOP2022/2026 presupposes that such participation can legally take place, and that such participation in Camurus' assessment can take place with reasonable administrative costs and financial and practical efforts. The Board shall have the right to adapt the terms of ESOP2022/2026 to the extent necessary to enable delivery of Employee Options and the economic value of the resulting shares to persons in other countries, as far as practicable, on terms and conditions corresponding to those that follows from ESOP2022/2026.
12. The other conditions for participation in ESOP2022/2026 shall be determined by the Board.

B. DIRECTED ISSUE OF WARRANTS AND APPROVAL OF TRANSFER OF WARRANTS TO FULFIL THE COMPANY'S COMMITMENTS UNDER ESOP2022/2026 AND TO SECURE SOCIAL SECURITY CHARGES

To enable Camurus to deliver shares or warrants that can be immediately converted into shares in accordance with ESOP2022/2026 and to secure associated costs, such as social security charges, the Board proposes that the annual general meeting resolves on a directed issue of warrants and to approve the transfer of warrants on the following terms:

1. A maximum of 1,083,000 warrants shall be issued.
2. Camurus Development AB, a wholly owned subsidiary of Camurus, shall, with deviation from the shareholders' preferential rights, be entitled to subscribe for the warrants.
3. Subscription of the warrants shall be made on a separate subscription list no later than on 30 June 2022, whereby the Board has the right to extend the subscription period.
4. The warrants shall be issued free of charge.
5. Each warrant shall entitle the holder to subscribe for one (1) new share.
6. The subscription price per share shall amount to 130 percent of the volume-weighted average price for the company's share on Nasdaq Stockholm during the ten days of trading immediately following the company's 2022 annual general meeting (the "Exercise Price").
7. Subscription of shares in the company by exercising the warrants may take place on one or more occasions during the period from and including 1 June 2025 to and including 1 March 2026.
8. If all warrants are exercised to subscribe for new shares, the share capital may increase by a maximum of SEK 27,075. In the event that the subscription price for newly subscribed shares exceeds the quota value of the shares, the excess subscription amount shall be added to the unrestricted share capital.
9. A share issued after exercise of a warrant shall entitle to dividend for the first time on the record date for dividends that falls immediately after the share has been registered with the Swedish Companies Registration Office.
10. Other terms for the warrants, including conditions for recalculation of the Exercise Price and the number of shares that each warrant gives the right to subscribe for, are set out in the "Terms & conditions for Camurus AB's warrants 2022/2026".

The reason for the deviation from the shareholders' preferential rights is that the issue forms part of the implementation of ESOP2022/2026. In light of what has been stated in *Background and reasons* above, the Board believes that it is to the advantage of Camurus and its shareholders that senior executives and other employees in the Camurus Group are offered participation in ESOP2022/2026.

The Board further proposes that the annual general meeting resolves to approve that Camurus Development AB, directly or indirectly, is permitted to transfer warrants and/or shares free of charge to the participants of ESOP2022/2026 in connection with the Employee Options being exercised in accordance with their terms, or to otherwise dispose of the warrants, including (but not limited to) selling them to financial institutions to secure Camurus' commitments and costs in connection with ESOP2022/2026.

Since an authorisation for the Board to resolve on transfer of own shares on Nasdaq Stockholm is valid only until the next annual general meeting, the Board has decided not to propose that the 2022 annual general meeting resolves on an authorisation for the Board to resolve on transfer of the company's own shares on Nasdaq Stockholm in order to secure payment of social security charges. However, before any transfer of warrants and/or shares in Camurus to participants in ESOP2022/2026, the Board may propose a later general meeting to resolve on an authorisation for the Board to resolve on transfer of the company's own shares on Nasdaq Stockholm in order to secure payment of social security charges.

Last, the Board proposes that the Board, or anyone appointed by the Board, should be authorised to make the minor adjustments to the above-mentioned resolution that may prove necessary in connection with registration with the Swedish Companies Registration Office and possible Euroclear accession of the warrants.

Costs related to ESOP2022/2026

The Board estimates that ESOP2022/2026 will incur costs for the company from an accounting perspective in accordance with IFRS 2. Personnel costs in accordance with IFRS 2 do not affect the company's cash flow. Social security charges will be expensed in the income statement during the vesting period.

Based on the assumption of a share price at the time of allocation of the Employee Options of SEK 151.8, an annual increase in the share price of 30 percent, that 100 percent of the Employee Options included in the program will be exercised and that the Employee Options at the time of allocation are valued in accordance with a Black & Scholes model, the annual personnel cost from an accounting perspective according to IFRS 2 for ESOP2022/2026 is estimated to amount to a total of approximately SEK 16 million during the period 2022-2026. Assuming instead that 50 percent of the Employee Options in the program are exercised, the corresponding cost is estimated to a total of SEK 8 million. The Employee Option have no market value because they are not transferable. However, with the help of Optio Incentives, an external and independent party, the company has calculated a theoretical value of the Employee Option using the Black & Scholes valuation model. The calculations have been based on the term of the Employee Option, the Exercise Price, an assumed share price of SEK 151.8 at allotment, an assumed volatility of 50 percent, an expected dividend of SEK 0 and a risk-free interest rate during the term of the Employee Option of -0.090 percent. According to this valuation, the value of the Employee Options amounts to approximately SEK 44 per Employee Option. The restrictions on transferability have not been considered in the valuation. The actual IFRS 2 cost during the vesting period depends on how many Employee Options that are exercised.

Upon exercise of the Employee Options, ESOP2022/2026 also results in costs in the form of social security charges. Total costs for social security charges during the vesting period depend on how many Employee Options that are exercised and on the value of the benefit that the participant will ultimately receive, i.e. on the value of the Employee Options upon exercise. Assuming that 100 percent of the Employee Options included in the program will be exercised, that the social security charges amount to 27.0 percent, an assumed Exercise Price of SEK 197 and an assumed share price of SEK 262 when exercising the Employee Options, the costs for the social security charges amount to approximately SEK 18 million. Under the same conditions, but assuming that 50 percent of the Employee Options included in the program are exercised, the cost of social security charges is estimated to amount to approximately SEK 9 million. The company's entire cost for social security charges is proposed to be secured through the directed issue of warrants in accordance with item B above.

Dilution and effects on important key figures

ESOP2022/2026 entails the issue of a maximum of 1,083,000 warrants, of which 1,000,000 warrants to cover Camurus' commitments to the participants in the program and 83,000 warrants to cover costs for social security charges. Assuming that all warrants issued in connection with ESOP2022/2026 are used to subscribe for new shares, Camurus' share capital will increase by SEK 27,075. This corresponds to approximately 1.9 percent of the shares and votes in the company after full exercise. In such case, the key ratio earnings per share for the full year 2021

had changed in such a way that the loss per share had decreased by approximately SEK 0.01 from SEK -1.66 to SEK -1.65.

Camurus already has two ongoing incentive programs based on warrants, Warrants Program 2019/2022 and Warrants Program 2020/2023 and one ongoing program based on employee stock options (ESOP2021/2024). These programs together comprise a maximum of 1,908,934 new shares in Camurus, corresponding to a total dilution effect of approximately 3.5 percent. In total, the warrant programs, ESOP2021/2024 and ESOP2022/2026 entail a maximum dilution effect of approximately 5.5 percent, compared to the total outstanding shares and votes in the company at the time of this proposal.

The above calculations are subject to any additional recalculations of the warrants in accordance with the terms that apply to the respective incentive program. All dilution effects have been calculated as the number of additional shares in relation to the number of existing and additional shares.

Program preparation

The proposal for ESOP2022/2026 has been prepared by the Board and its Remuneration Committee in consultation with certain major shareholders and external advisers.

Majority requirements

The Board's proposal for a resolution regarding ESOP2022/2026 and the necessary measures to fulfil the company's associated commitments in accordance with items A and B above is put forward as single proposal. The Board therefore proposes that the resolution of the annual general meeting under items A and B above is made as a single resolution in compliance with the majority rules in chapter 16 in the Swedish Companies Act, meaning that shareholders with at least nine tenths of both the votes cast and the shares represented at the meeting must vote in favour of the proposals.

Available documents

Financial statements, the auditor's report and the statement by the auditor and the Board's complete proposal for the resolutions will be available at the company and on the company's website, www.camurus.com, as from 21 April 2022 at the latest, and will be sent upon request to shareholders who provide their address. Copies will also be available at the AGM. The Nomination Committees' reasoned statement is available at the company's website www.camurus.com.

Information at the AGM

The Board and the CEO shall at the AGM, if any shareholder so requests and the Board believes that it can be done without significant harm to the company, provide information regarding circumstances that may affect the assessment of items on the agenda, circumstances that can affect the assessment of the company's or its subsidiaries' financial position and the company's relation to other companies within the group.

Number of shares and votes in the company

At the time of this convening notice, the total number of shares in the company amounts to 54,828,584. The company has only one series of shares and the total number of votes in the company amounts to 54,828,584.
